#### > USB for iPod Video and MP3/WMA/AAC

The USB connection provides seamless access and playback of your audio and video content stored on your iPod®. It also lets you enjoy the convenient playback of MP3/WMA/AAC audio files stored on USB media devices such as memory sticks and portable hard disc drives. What's more, Alpine's quick search function provides easy file and folder search, as well as alphabetical ordering and DRM10 (Digital Rights Management)\* compatibility.

#### > Parrot Bluetooth Ready with 2008 Adapter

Connect the KCE-400BT Parrot Bluetooth Module and KWE-460E Full Speed Adapter (available in KCE-400BTi bluetooth kit), to your 2008 head unit to receive full operation of bluetooth enabled mobile phones. Parrot Bluetooth provides the widest phone compatibility and software updates ensure future phone compatibility.

#### > WMA / MP3 / AAC

Play your compressed music files. When you purchase music from the Internet and burn it onto CDs, you naturally want to play it in your car. Select Alpine head units are fully compatible and are ready to handle all your compressed music files: AAC, MP3 and WMA. Plus, with Alpine's Built-in high power amps and Alpine speakers, they'll sound better than ever.

#### > DivX Videos

If you have movies or other digital video content stored in the ever popular DivX format, simply burn the files to a DVD disc and bring it to the car. What's more, the IVA-W502E can playback DivX content with super high-quality video and audio.

#### > 24 bit D/A converter

To ensure only the best sound quality, premium Alpine head units use high-resolution Burr Brown 24-Bit Digital-to-Analogue conversion. The 24-Bit DAC decodes the digital signal into amazing sound reproduction, allowing for an incredible Signal to Noise ratio of 105dB.

#### > DVD Video/Audio Playback

Playback DVD video and ultra-high-end DVD audio recordings to enjoy true fidelity and clarity with up to 24-bit/192kHz processing, so you can experience each instrument or vocal in its own separate sonic space.

#### > WVGA High Resolution Display

WVGA screen technology delivers ultra-high-resolution for stunning image clarity and vivid colours. Plus, Visual Enhancement technology provides a clear picture and amazing contrast in very dark or bright scenes. This is the best display panel Alpine has ever offered.

#### > 3 Preouts

**3**

The three sets of RCA PreOut lets you build a full-fledged sound system to add multiple amplifiers, speakers and subwoofers for a truly remarkable premium sound system. The subwoofer control allows you to adjust the bass level intensity to exactly how you like it.

#### > 50Watts x 4 Built-in Amplifier

This high quality head unit delivers exceptional clean sound from its built-in high-power 50Watts x4 amplifier. Perfectly matched to Alpine speakers, you will enjoy brilliant sound quality.

#### > Percentage Search for iPod

For especially big music libraries, the new Percentage Search function uses the preset buttons for quick jumps to specific parts of the list.

the sound in the vehicle's interior with incredible precision. If you want to do the tuning by yourself, the PXA-H100 also includes a wide range of sound tuning features, which can be controlled from the head unit or MMS.

#### > Reverse Camera Ready

This head unit is equipped with a dedicated camera input to connect the optional HCE-C105 reverse camera. The camera is compact for easy of installation, plus its picture is bright and clear, so you always know what is behind you for easy maneuvering and safety.

#### > DVD/CD Changer Ready

The Ai-Net connection lets you add the CHA-S634 6-disc changer to play CDs and MP3 tracks, or the DHA-S690 6-disc DVD/CD changer allows you to play the latest media formats including DVD Video, DivX, CD and WMA/MP3/AAC music files.

#### > Steering Wheel Remote Ready

Steering Wheel Remote Control Ready. Replace the factory-installed head unit without loss of this convenient option. Alpine head units that are steering wheel remote control ready allow you to control your head unit right from your factory installed steering wheel controls using a third party adapter. There are many popular brands such as PAC (Pacific Accessories Corporation), CAT (Car Audio Transponder), Peripheral Electronics and Connects2 that add this feature. Ask your Alpine Dealer for the solution to suit your vehicle.

#### > Remote Control Ready

With the optional infrared (IR) remote control, enjoy the convenience of effortlessly commanding basic functions of the Alpine head unit wirelessly.
